

Beyond45

Boosting professional skills of unemployed people beyond 45

The objective of the BEYOND45 project is to develop a training program to stimulate the employability of unemployed people beyond 45 by increasing their professional skills in relation to the existing demand in the current labor market.

Project development

According to official statistics of the European Union one in five people over 45 is unemployed.

The aim of the project is to create a training program that will stimulate companies to hire this type of workers over 45 years of age by increasing their skills in ICTs, home automation, intelligent furniture and consumer electronics.

For that purpose, work in the sectors of the furniture and wood industry, the construction and the electronics for interior design and smart furniture will be done.

Goals to achieve

The development of the methodology, the program and the training material will be carried out through a multilin-

gual e-learning platform, which will be used to develop skills in the field of entrepreneurship, promotion of creativity and innovation, the development of communication skills, and information and communication technologies.

Participants

Technological Centre of Furniture and Wood of the Region of Murcia, Polish Chamber of Commerce of Furniture Manufacturers, Warsaw University of Life Sciences, Vocational College for Woodworking, Furniture and Interior Design of Holland, Textile Testing Institute of Czech Republic.

Co-funded by the
Erasmus+ Programme
of the European Union
